## Room for everyone – and everything.

Family life can be full of surprises. And that's exactly why the Kia Venga is designed to be perfectly versatile. While the outside dimensions are nicely compact, inside there's enough room for every adventure and every opportunity to share in some fun. Whatever you've got planned, the super-spacious Kia Venga is always ready to go.

## We've got safety covered.

You're focussed on protecting your loved ones – and so are we. That's why the Kia Venga is designed to deliver when it comes to safety. An arsenal of active safety technologies includes an Anti-lock Braking System (ABS) and a Brake Assist System (BAS) which ensure that sufficient brake force is applied in emergency situations. Vehicle Stability Management (VSM) works alongside motor-driven power steering to keep the car stable when simultaneously braking and cornering – especially on wet, slippery and rough roads. Finally, Hill Start Assist Control (HAC) takes the strain out of starting the car on a steep hill.

The Venga's rigid bodyshell and carefully positioned crumple zones help reduce any impact when it matters most, as do the six airbags. Finally, all five seats have three point seat belts for maximum safety.

**1. Airbags** Six airbags keep you and your passengers safe (including dual front airbags, front side airbags and full-length curtain airbags for rear passengers).

**2. Active headrest** The front seats of the Venga feature active headrests to maximize head and neck support in case of impact.

**3. Tyre pressure alarm** With the tyre pressure alarm, you'll be able to keep a check on things for added peace of mind.

**4. Electronic Stability Control** ESC helps maintain stability by countering oversteer or understeer. The system applies brakes automatically to individual wheels and supervises the engine power until control is regained.
